Chicago, Illinois 60606

Dear Mr. Krueger:

This letter is in response to our phone conversation on May 8, 1984 confirming your June 13, 1984 visit to inspect our facilities according to EPA Hazardous Waste Site Notification Form 8900-1. Since talking with you, our legal department has indicated they are concerned about the level of protection we have when inspected by a private party. They do not feel the company will have the same level of protection that is provided by law when an inspection is conducted by a government official. Accordingly, on May 11, 1984 we sent a letter to Mr. Valdas Adamkus, USEPA Regional Administrator for Region V, requesting clarification on this issue.

We would want to receive clarification from the USEPA before allowing you to make the inspection. Please keep the June 13th date open as we would expect to hear from USEPA in time to accommodate you.

Very truly yours,

G. M. Miller
Technical Manager
